

BECOME A MONEY MAGNET

Success, Money & Prosperity is what we all want. However, often certain unseen factors can hold us back. According to Inna Segal, the creator of **Inner Kiss™ Healing, Visionary Intuitive Healing™** and the co-founder of **Inner Power Training**, this need no longer be the case. “Once you are in touch with your inner feelings and thoughts of abundance and success you are able to literally create as much money as you are willing to receive. I teach people to access their inner power in order to achieve outer success. And it works.”

Inna has first-hand experience in assisting people to achieve powerful states. She has proven her own abilities in many areas; from establishing a thriving healing practice, with clients throughout Australia, New Zealand, America, Europe, Italy and Japan, to having a column titled Wealthy Soul alongside Anthony Robbins and Brian Tracey in Wealth Creator Magazine.

Inna has led many public training programs and conducted presentations for businesses, government institutions, charities, groups and specialty clubs, including Rotary. Topics include: **How to Release Your Inner Power**, and **How to Become a Money Magnet**. Her aim is to support people to achieve their highest potential in all areas of their lives: including health, wealth and relationships.

“I always get people to practice manifestation exercises whenever I lead a presentation. I like to leave the audience feeling empowered, not only knowing that they can achieve amazing results but also having new tools and the awareness to do it,” says 25-year-old Inna

Inna has found that people of all ages and areas of interest are able to gain great benefit from learning and applying the principles and the processes she teaches. To make her work more accessible she has just created a new CD, titled **Success, Money & Prosperity**. In order to create success, money and prosperity more quickly, Inna encourages people to participate in a 30-Day Success Challenge that she provides free of charge on her web-site www.innnerkiss.com. Each day participants are encourage to take specific actions towards their dreams.

“After I began working with clients individually and leading training events I found that people would often call or e-mail a few days after the event to let me know about the successful results they achieved. People were often able to manifest the exact amount of money they had asked for, relationships, jobs, holidays, etc. However, more than that, they learnt to value themselves and recognise their own greatness,” explains Inna.

Just ask Marketing Business Manager, Ben Komisars. *“The seminar helped me change my attitude and focus. I achieved more in the next month than I had done in years.”*

And Rodney Levi, Business Banking Officer agrees, *“The course gave me fantastic insights and clarity into the basis of my own self-worth. It gave me the choice and confidence to pursue any goal that I dreamt about.”*

Jo Beilby of JLB Enterprises confirms, *“Inna’s Abundance Seminar resulted in two new jobs in two days for my company. Now that’s practical spirituality!”*

Inna has spent years interviewing and learning from bestselling authors who write about personal success and wealth, including Robert Kiyosaki (Rich Dad Poor Dad), Suze Orman (9 Steps to Financial Freedom), Jack Canfield (Chicken Soup for the Soul, The Success Principles), Mark Victor Hansen (The One Minute Millionaire, Chicken Soup for the Soul), Dr. John F.
